Technically Co-sponsored by
IEEE Control Systems Society

BACKGROUND

The 23rd International Conference on System Theory, Control and Computing ICSTCC 2019 aims at bringing together under a unique forum, scientists from academia and industry to discuss the state of the art and the new trends in system theory, control and computer engineering, and to present recent research results and prospects for development in this rapidly evolving area.

ICSTCC 2019 joins four previous different scientific meetings hosted by University of Craiova (SINTES - International Conference on System Theory and Control), "Gheorghe Asachi" Technical University of Iasi (SACCS - International Symposium on Automatic Control and Computer Science), "Dunărea de Jos" University of Galati (SIMSIS - International Symposium on Modelling, Simulation and Identification Systems), and Politehnica University of Timisoara (CONTI - International Conference on Technical Informatics).

As well as the previous editions, ICSTCC 2019 is technically co-sponsored by **IEEE Control Systems Society** and the Proceedings will be submitted to **IEEE Xplore Digital Library**. Moreover, the Proceedings of the 2013 and 2015-2017 editions are indexed in **Clarivate Analytics Web of Science**.

ICSTCC 2019 will feature several kinds of presentations, including invited talks, contributed papers and special sessions. The outcome of ICSTCC 2019 can be a better understanding and development of some leading research areas: automation, control systems, robotics, computers, electronics and electrical engineering.

IMPORTANT DEADLINES

- **May 20, 2019:** Submission of papers (firm deadline, no further extension)
- **June 28, 2019:** Notification of acceptance
- **July 26, 2019:** Final camera ready manuscript and registration payment of at least one of the authors
- **October 9-11, 2019:** Conference

KEYNOTE SPEAKERS (Confirmed)

- **Maria Elena VALCHER (Italy)**
- **Marios M. POLYCARPOU (Cyprus)**
- **Marcin PAPRZYCKI (Poland)**
- **Gianluca TEMPESTI (UK)**

TOPICS

The conference topics include (but are not limited to):

Automation and Robotics

- Linear and Nonlinear Control System Design
- System Identification and Process Modeling
- Robust and Adaptive Control
- Robotics and Intelligent Control
- Applications and Case Studies in Automation and Robotics
- Embedded Systems

Computer Science and Engineering

- Distributed Systems and Software Engineering
- Databases, Systems of Programs and Expert Systems
- Web Services, Internet Security
- Software Tools and Methods
- Grid Computing
- Artificial Intelligence
- Computer Architectures

Electronics and Instrumentation

- Modeling, Simulation and CAD Tools
- Signal Processing and Communication Systems
- Linear and Nonlinear Circuits and Systems
- Evolutionary Electronics

PAPER SUBMISSION

Full papers should be submitted using the PaperCept Conference Management System, by web upload at <http://controls.papercept.net/conferences/scripts/start.pl#STCC19>. All materials must be written in English. Submitted papers will undergo a peer review process, coordinated by the International Program Committee.

Papers submitted for presentation should contain original research, not published or being considered for publication elsewhere. All submissions will be tested for similarity and overlap with prior published material using the iThenticate tool. The results of this analysis will be made available to the Program Committee for evaluation. Possible violations of the IEEE ethics rules in publishing will be investigated by a dedicated committee.

The corresponding author of each paper will be notified of the result by e-mail. Accepted papers will be published in the conference proceedings, provided that at least one of the authors attended the conference and presented the paper. As part of the submission procedure, authors of accepted papers must send a signed Copyright Form for each paper. In the absence of such a form, the paper cannot be published.

The final form of the papers must meet IEEE pdf compliance requirements. Maximum six pages A4 in double column format are allowed. Authors may upload longer manuscript up to a maximum of eight pages. However, each page in excess of six will incur a charge of 50 EUR.

INVITED SESSIONS

Proposals for INVITED SESSIONS in the conference topics are welcomed. People interested in organizing a SESSION

should notify their intention at the address: icstcc2019@cs.upt.ro. A proposal for an INVITED SESSION should include the title of the session, a half-page description of its topic, together with a list of at least six papers (authors and tentative titles) that will be submitted to the session. Papers submitted for a special session will be reviewed in the same manner as the regular papers.

CONFERENCE FEES

- Early registration (before July 26, 2019): 325 EUR (275 EUR for IEEE Members);
- Late/ on site registration: 375 EUR (325 EUR for IEEE Members);
- Early student registration (before July 26, 2019): 200 EUR;
- Late/ on site student registration: 225 EUR.

A registration fee covers: attendance at all sessions, conference materials, coffee breaks, lunches on the days of the conference, welcome reception and gala dinner. It also includes an electronic copy of the conference proceedings. Regular registrants are allowed to upload two papers. Student registrants are allowed to upload only one paper. Additional papers may be uploaded for 125 EUR each.

CONFERENCE VENUE

Sinaia is one of the most famous and oldest mountain tourist resorts in Romania, known as "The Carpathian Pearl". Situated in a breath-taking mountain scenery, Sinaia is located at 120 km distance from Bucharest, on the Prahova Valley. Blending astonishing beauty of nature with picturesque architecture, Sinaia is a formal royal residence and bears a holy name, that of Mount Sinai. The 23rd International Conference on System Theory, Control and Computing will be hosted by the Palace Hotel, Sinaia (<http://palacesinaia.ro/palace/>), located close to the centre of the resort. This stylish hotel is a great choice for pretentious tourists, for conferences and meetings. Popular nearby tourist attractions are Sinaia Monastery and Peles Castle (one of the best-preserved royal palaces in Europe, which served as the summer residence of the first king of Romania, Carol I).
